PROFILE

Highly skilled and motivated Software Engineer with experience in designing, developing, and implementing innovative software solutions.

Proven track record of delivering high-quality projects within tight deadlines.

Adept at collaborating with cross-functional teams to drive project success. Strong analytical and problem-solving skills with a keen interest in staying abreast of emerging technologies.

LUKA LAZIC

Software Engineer

SKILLS

Python | **C++** | **JavaScript** | **.NET** | **TypeScript** | **Java** | **MongoDB**
MySQL | **NoSQL** | **Frontend** | **Backend** | **Full-Stack** | **English**

Web Technologies: Experience with HTML, CSS, and JavaScript; Familiarity with React

Database Management: Skilled in working with MySQL and MongoDB

Frameworks: Expertise in using Spring and Django for application development

Version Control: Proficient in Git and SVN for source code management

DevOps: Experience with Docker and Jenkins for continuous integration and deployment

Cloud Computing: Familiarity with AWS and Azure cloud platforms
Agile/Scrum Methodologies: Experience working in Agile development environments

Testing and Debugging: Strong skills in testing and debugging software applications

Data Structures and Algorithms: Proficient in designing and implementing efficient algorithms

Problem-solving and Critical Thinking: Demonstrated ability to analyze complex problems and devise effective solutions

WORK EXPERIENCE

Company:

Your Complete Web Solution/Intern
June 2023/December 2023

- Designed and implemented a microservices architecture for a high-traffic e-commerce platform, resulting in a 30% improvement in system reliability and a 20% increase in user satisfaction. Led the migration process, ensuring seamless integration with existing systems and minimal disruption to operations.
- Collaborated with cross-functional teams to optimize the performance of a critical financial application, reducing response times by 25% and improving overall system efficiency. Played a key role in troubleshooting complex issues and implementing solutions to enhance system stability.

EDUCATION

Graduated Software Engineer at the Technical Faculty of Singidunum University Belgrade Serbia

Coursework: Data Structures, Algorithms, Object-Oriented Programming, Software Engineering, Database Management Systems, Web Development
